A Guide to State and Local Programs

The General Services Administration (GSA) takes a great deal of pride in our ability to support government agencies of all sizes. We have a reputation in the marketplace for service and value through decades of working side-by-side with commercial industry partners and government agencies. GSA programs offer state and local customers access to state-of-the-art, supplies and services at volume discount pricing. The Federal Supply Schedules also offer the benefits of shorter lead-times, lower administrative costs and access to industry partners that can assist in meeting goals to support small businesses and sustainability.

GSA is pleased to provide you with our Guide to State and Local Programs. Access to GSA's massive bank of resources opens up a world of, best-value products and services that state and local agencies won't find from any other single source. We look forward to serving our state and local customers. For information on all the GSA State and Local Programs, please visit: www.gsa.gov/stateandlocal.
